Intell Weekly Report
Week Ending June 29, 1972

Dear Terry,

Situation: Additional data needed on Terry Prucher, he has made some wild accusations against Scientologists, and has threatened to sue more than once.

Why: No full data ever gathered on Prucher before.

Handled: Completely went through all Prucher's FC folders and compiled some interesting data which directly contradicted what Prucher had given me during tape interview. Also did a time track on Prucher and included all of his addresses from present time back. Also did time track on Dr. Milton Miller, which was Prucher's psychiatrist in Wisconsin. All this data is being forwarded up line.

Situation: Got a report from A/S ... about a guy calling himself Donald Hamming, who called both the FORNIA and Bob Wilcox, Religious Editor of the Miami News, and told them that LHM is living in Ft. Lauderdale under the name of Mr. Rose. Police were not very receptive and Bob Wilcox apparently ignored the information.

Why: Possible 3-rd Party action.

Handled: Researched all telephone directories in Florida for the following names: Hamming, Hamming, Hamming, Hamming, Hamming, Hamming, Hamming, Hamming, etc. Have not been able to find anything even vaguely similar to those names in any Florida directory, so no data yet. Will keep aware of any further developments on this.

Love.

Jebbie
